

```
1 package student;
2 import java.util.Date;
3
4 public class Api {
5
6     public static void main(String[] args) {
7         System.out.println("Current date:");
8         System.out.println("-----");
9         Date obj=new Date();
10        System.out.println(obj);
11    }
12 }
13
```
